SUMMARY

Experienced Front-end Developer specializing in building scalable and responsive web applications using Vue.js and modern web technologies. Proficient in API integration with Axios, state management using Pinia, implementing responsive design principles, and optimizing application performance to deliver high-quality solutions.

EXPERIENCE

Frontend Developer

TransForat, Al Mansour, Baghdad · Feb 2026 – Present

- Develop and maintain modern, responsive user interfaces for corporate platforms and event management dashboards.
- Collaborate with design and backend teams to implement features for the Gudea Event Dashboard, optimizing for performance and seamless usability.

Frontend Developer

Health360, Zayouna, Baghdad · Sep 2025 – Present
Part-time and fully remote since February 2026, alongside the role at TransForat.

- Develop and maintain scalable and responsive web applications using Vue.js.
- Utilize Pinia for efficient state management and integrate Axios / TanStack Query to handle API requests.

Frontend Developer

AL Muraba for Information Technology, Al Mansour, Baghdad · Oct 2023 – Sep 2025

- Develop and maintain scalable and responsive web applications using Vue.js.
- Utilized Pinia for efficient state management and Axios/TanStack Query for handling API requests.
- Collaborated on projects including ERP systems, DMIS systems, and CMS platforms. Implemented reusable components and libraries to streamline development processes.

Freelance Frontend Developer

Self-employed · May 2023 – Oct 2023

- Delivered a market store web design to showcase products.
- Worked on a small-scale project tailored to client needs.

PROJECTS

EMP: Education Platform · Health360

Oct 2025 – Sep 2026 · https://haydar.pro/projects/health360-education-platform
I built the front end of EMP, the admin console behind a tutoring business that sells exam-prep courses through bookshops and registration offices across Iraq.

- Agent wallets and debt limits, with a warning past 74% of the limit
- Sales, deposits and refunds, each approved or rejected by staff

Vue 3 · TypeScript · Vite · Vuetify 3 · Vuexy · Pinia · TanStack Vue Query · ofetch

DMIS: Doctor Information System · AL Muraba

Dec 2023 – Aug 2025 · https://haydar.pro/projects/al-muraba-dmis
DMIS takes a medical association’s paper membership files online.

- A 360 profile per doctor: membership, requests, notes, records and documents
- Invoices priced per year, with emailed payment links and card payment

Vue 3 · TypeScript · Vite · Vuetify 3 · Vuexy · Pinia · vue-i18n · CASL

MDC / HES Smart-Metering Console · TransForat

Jul 2026 – Sep 2026 · https://haydar.pro/projects/mdc-hes
MDC / HES is the console a utility’s operators and engineers use to run a fleet of smart electricity meters: estate health, alarm triage, on-demand DLMS reads from a physical meter, and relay and limiter commands that only fire after a confirmation and are judged on the meter’s read-back.

- Estate dashboard: availability, alarm pressure, concentrators, command outcomes and live health probes
- Live DLMS reads shown as instruments, with live sessions over a WebSocket device bus

Vue 3 · TypeScript · Vite · Tailwind CSS v4 · reka-ui · Pinia · TanStack Vue Query · CASL

MERP: HR Management · AL Muraba

Nov 2023 – Feb 2025 · https://haydar.pro/projects/al-muraba-erp

MERP is AL Muraba’s in-house ERP, an Arabic, right-to-left admin app with modules for common data, HR, archiving, projects and security.

- A 12-tab employee file, each tab loaded the first time it opens
- Thank-you letters and punishments on one colour-coded timeline

Vue 3 · TypeScript · Vite · Vuetify 3 · Vuexy · DevExtreme · Pinia · vue-i18n

Gudea Drug-Regulation Dashboard · TransForat

May 2026 – Jul 2026 · https://haydar.pro/projects/gudea-dashboard

Gudea is a drug-regulation platform in Iraq, and this is its analytics side: six dashboards for label printing, the drug catalogue, health inspectors' reports, lab tests, import and customs approvals, and revenue, each behind its own permission.

- Six dashboards from one backend payload, each behind its own permission
- Label printing: exported and printed labels, completion by drug class, output per printer

Gudea Event Dashboard · TransForat

Feb 2026 – May 2026 · https://haydar.pro/projects/gudea-event-dashboard

Gudea is an events and ticketing platform in Iraq, and this is the dashboard its team runs it from: they review and publish the events organizers submit, follow ticket sales, manage organizer accounts and set who can do what.

- Review each submitted event in one dialog, then approve, reject, or send it back with a note
- A moderation queue with status filters, search and a featured flag

Vue 3 · TypeScript · Vite · Tailwind CSS · shadcn-vue · Pinia · vue-i18n · CASL

Government Mail System · AL Muraba

Feb 2025 – Aug 2025 · https://haydar.pro/projects/government-mail-system

The Government Mail System replaces paper letters carried between government bodies in Iraq: an Arabic, right-to-left back office where registry staff register, route and answer official letters and follow each one from draft to reply.

- Letters built from scans or templates and numbered by each organisation’s rules
- Routing to organisations and groups, with required, optional or disabled replies

Vue 3 · TypeScript · Vite · Vuetify 3 · Vuexy · Pinia · vue-i18n · CASL

AlMuraba CMS: Admin Panel · AL Muraba

Oct 2023 – Jun 2024 · https://haydar.pro/projects/al-muraba-cms

AlMuraba CMS is AL Muraba’s own headless content management system, and this is its admin panel: an Arabic, right-to-left Vue 2 app.

- Content types built in the UI, each with its own list, editor and permissions
- One entry in Arabic, Kurdish and English, with the type’s fields as a form

Vue 2.7 · Vuetify 2 · Vuex · Vue Router · Vue CLI · webpack 4 · Sass · Axios

SKILLS

Frontend Technologies: HTML, CSS, JavaScript, TypeScript, Vue.js, React.js, Nuxt.js

State Management: Pinia, Redux

HTTP Libraries: Axios, TanStack Query

UI Libraries: Vuetify, Tailwind

Services: Firebase, Netlify

Tools: GitHub, Vite, Figma, Postman

Performance Optimization: Lazy loading, Code splitting

Soft Skills: Problem-solving, team collaboration, adaptability

EDUCATION

Bachelor's Degree, Computer Science

University of Technology · 2023
